Business Segment Information

Organic Net Sales

Through February 28, 2019, our internal management financial reporting consisted of two business divisions: (i) Beer and (ii) Wine and Spirits. Beginning March 1, 2019, as a result of our November 2018 Canopy Investment and a change in our chief operating decision maker ("CODM") on March 1, 2019, we have changed our internal management financial reporting to consist of three business divisions: (i) Beer, (ii) Wine and Spirits, and (iii) Canopy. Consequently, as of May 31, 2019, we report our operating results in four segments: (i) Beer, (ii) Wine and Spirits, (iii) Corporate Operations and Other, and (iv) Canopy. The Canopy Equity Method Investment makes up the Canopy segment.

In the Beer segment, our portfolio consists of high-end imported beer, craft beer, and ABA brands. We have an exclusive perpetual brand license to import, market, and sell our Mexican beer portfolio in the U.S. In the Wine and Spirits segment, our portfolio includes higher-margin, higher-growth wine brands complemented by certain higher-end spirits brands. Amounts included in the Corporate Operations and Other segment consist of costs of executive management, corporate finance, corporate growth and strategy, human resources, internal audit, investor relations, legal, public relations, and information technology, as well as our investments made through our corporate venture capital function. All costs included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are, therefore, not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are entor included in our CODM's evaluation of the operating income (loss) performance of the other reportable segments. The business segment reflect how our operations are managed, how resources are allocated, how operating performance is evaluated by senior management, and the structure of our internal inporting.

Amounts included for the Canopy segment represent 100% of Canopy's reported results on a two-month lag, prepared in accordance with U.S. GAAP, and converted from Canadian dollars to U.S. dollars. Although we own less than 10% of the outstanding shares of Canopy, 100% of the Canopy results are included in the information below and subsequently eliminated in order to reconcile to our consolidated financial statements.

In addition, management excludes items that affect comparability ("Comparable Adjustments") from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segment. Segment operating performance and the incentive compensation of segment management are evaluated based upon core segment operating income (loss) which do not include the impact of these Comparable Adjustments.

Organic and Constant Currency

For periods of acquisition, the Company defines organic as current period reported less products of acquired businesses reported for the current period, as appropriate. For periods of divestiture, the Company defines organic as prior period eless products of divested businesses reported for the prior period, as appropriate. Depletions

Depletions represent U.S. domestic distributor shipments of the Company's respective branded products to retail customers, based on third-party data. For periods of acquisition, depletion volume includes depletion of products of acquired businesses for the prior comparable period, as appropriate. For periods of divestiture, depletion volume excludes depletion of products of divested businesses for the prior comparable period, as appropriate.
