Business Segment Information

Organic Net Sales

Through February 28, 2019, our internal management financial reporting consisted of two business divisions: (i) Beer and (ii) Wine and Spirits. Beginning March 1, 2019, as a result of our November 2018 Canopy Investment and a change in our chief operating decision maker ("CODM") on March 1, 2019, we have changed our internal management financial reporting to consist of three business divisions: (i) Beer, (ii) Wine and Spirits, and (iii) Canopy. Consequently, as of May 31, 2019, we report our operating results in four segments: (i) Beer, (ii) Wine and Spirits, (iii) Corporate Operations and Other, and (iv) Canopy. The Canopy Equity Method Investment makes up the Canopy segment.

In the Beer segment, our portfolio consists of high-end imported and craft beer brands. We have an exclusive perpetual brand license to import, market, and sell in the U.S. our Mexican beer portfolio. In the Wine and Spirits segment, we sell a portfolio that includes higher-margin, higher-growth wine brands complemented by certain higher-end spirits brands. Amounts included in the Corporate Operations and Other segment consist of costs of executive management, corporate development, corporate finance, corporate growth and strategy, human resources, internal audit, investor relations, legal, public relations, and information technology, as well as our investments made through our corporate venture capital function. All costs included in the Corporate Operations and Other segment are not included in our CODM's evaluation of the operating income (loss) performance of the other reportable segments. The business segments reflect how our operations are managed, how resources are allocated how operating performance is evaluated by senior management, and the structure of our internal financial reporting.

Amounts included for the Canopy segment represent 100% of Canopy's reported results on a two-month lag, prepared in accordance with U.S. GAAP, and converted from Canadian dollars to U.S. dollars. Although we own less than 100% of the outstanding shares of Canopy, 100% of the Canopy results are included in the information below and subsequently eliminated in order to reconcile to our consolidated financial statements.

In addition, management excludes items that affect comparable Adjustments") from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segments. Segment operating performance and segment management compensation are evaluated based upon core segment operating income (loss).

Organic and Constant Currency

For periods of acquisition, the Company defines organic as current period reported less products of acquired businesses reported for the current period, as appropriate. For periods of divestiture, the Company defines organic as prior period reported less products of divested businesses reported for the prior period, as appropriate. The Company provides organic net sales and organic shipment volumes, and historically provided percentage change in constant currency net sales (which excludes the impact of year-over-year currency exchange rate fluctuations), because the Company uses this information in monitoring and evaluating the underlying business trends of its core operations. In addition, the Company believes this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance.
