FORWARD-LOOKING STATEMENTS

This presentation contains “forward-looking statements” within the meaning of the “safe harbor” provisions of the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical fact, may be forward-looking statements. Forward-looking statements can be identified by the use of statements that include words such as “anticipate”, “plan”, “continue”, “estimate”, “expect”, “exceed”, “may”, “will”, “project”, “predict”, “propose”, “potential”, “targeting”, “exploring”, “scheduled”, “implementing”, “intend”, “could”, “might”, “should”, “believe” and similar words or expressions, although not all forward-looking statements contain such identifying words. These statements may relate to business strategy, future operations, future financial position, expected cash flows, future leverage ratios, future payments of dividends, prospects, plans and objectives of management, manner and timing of share repurchases, as well as information concerning expected actions of third parties. Information provided in this presentation is necessarily summarized and may not contain all available material information. Forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from those set forth in, or implied by, such forward-looking statements. The forward-looking statements are based on current expectations of the management of Constellation and should not be construed in any manner as a guarantee that such results will occur or will occur on the timetables contemplated hereby.

Forward-looking statements in this presentation include, but are not limited to, statements with respect to: (i) the anticipated effects and benefits of Constellation’s investment in Canopy; (ii) the ability of Canopy to grow its business, operations and activities; (iii) the benefits of the investment to Canopy; (iv) the potential impact on Canopy’s growth prospects; (v) potential opportunities in the Canadian, U.S. and global cannabis markets, including for growth in sales, supply, revenue, cultivation and processing; (vi) the potential for future product development; (vii) the availability or benefit of Canopy’s existing contractual relationships, including provincial supply agreements; (viii) the ability of Canopy to achieve market scale; (ix) future Canopy revenue run rate and expected timing; (x) the impact of the transaction on Canopy’s outstanding share capital, exercise by Constellation of any warrants and expected date of consolidation; (xi) the abilities of management of Canopy; (xii) potential future market shares and operating margins to be achieved in medical and recreational cannabis markets and estimated timeframes; (xiii) trade agreements or tariffs; (xiv) product development; (xv) clinical trial work; (xvi) current and future acquisition and investment activities, including with respect to pending acquisitions; (xvii) amount and timing of future Constellation dividends or share repurchases; (xviii) Constellation’s ability and timetable to achieve expected cash flows, target growth, target debt leverage ratio and expected net debt to LTM EBITDA ratios; (xix) composition of Canopy’s management team; and (xx) cannabis legalization; as well as forward-looking statements also applicable to future global economic conditions; market conditions; other regulatory conditions; unanticipated environmental liabilities and costs; changes to international trade agreements or tariffs; timing of accounting elections or assertions or changes in accounting elections, assertions, or standards; changes in tax laws, tax rates, interest rates and foreign exchange rates; the actions of competitors; and consumer preferences.

Forward-looking statements are based on certain assumptions, estimates, expectations, analyses and opinions made by management in light of their experience and perception of historical trends, current conditions and expected future developments, as well as other factors management believes are appropriate in the circumstances. Many of these factors are beyond the control of Constellation or Canopy. Forward-looking information is subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statement, including, but not limited to, accuracy of all projections; risks relating to the cannabis industry, including legalization; risks relating to the demand for cannabis products; risks relating to future growth; risks relating to competition in the industry; financing risks; market risks; risks to the economy; regulatory risks; risks relating to global financial conditions; reliance on key personnel; operational risks inherent in the conduct of cannabis activities; increases in capital or operating costs; risks relating to Canopy’s ability to use the proceeds effectively; the risk of delays or increased costs that may be encountered during Canopy’s growth; environmental risks; Constellation’s ability to achieve expected cash flows, target debt leverage ratios and expected net debt to LTM EBITDA ratios and timeframe in which expected cash flows and target debt leverage ratio will be achieved will depend upon actual financial performance; expected benefits of the transaction may not materialize in the manner or timeframe expected, or at all; amount and timing of future Constellation dividends are subject to the determination and discretion of its Board of Directors; changes to international trade agreements or tariffs; beer operations expansion, construction, and optimization activities take place on expected scope, terms, costs and timetable; the accuracy of supply projections, including those relating to beer operations expansion, construction, and optimization activities, glass sourcing, and raw materials and water supply expectations; receipt of any other necessary regulatory approvals; operating and financial risks related to managing growth; the amount, timing and source of funds of any share repurchases; the accuracy of projections associated with previously announced acquisitions, investments and divestitures; accuracy of forecasts relating to joint venture businesses; accuracy of other projections associated with Canopy; and other factors and uncertainties disclosed from time to time in Constellation Brands, Inc.’s filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended February 28, 2018 and its Quarterly Report on Form 10-Q for the fiscal quarter ended November 30, 2018. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are made as of February 20, 2019, and Constellation does not intend and expressly disclaims any obligation to update or revise the forward-looking information contained in this presentation, except as required by law. Accordingly, readers are cautioned not to place undue reliance on forward-looking information.

USE OF NON-GAAP FINANCIAL MEASURES, DISCLAIMER AND CAUTION REGARDING OUTDATED MATERIAL

This presentation may contain non-GAAP financial measures. These measures, the purposes for which management uses them, why management believes they are useful to investors, and a reconciliation to the most directly comparable GAAP financial measures can be found in the appendix of this presentation. All references to profit measures and earnings per share on a comparable basis exclude items that affect comparability. Non-GAAP financial measures are also referred to as being presented on a comparable, organic or constant currency basis.

The notes offered under the Company’s commercial paper program have not been and will not be registered under the Securities Act and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements. This presentation shall not constitute an offer to sell or the solicitation of an offer to buy the Company’s notes under the commercial paper program.

Unless otherwise indicated, the information presented is as of February 20, 2019. Thereafter, it should be considered historical and not subject to further update by the Company.

Q&A

APPENDIX

COMPARABLE MEASURES (NON-GAAP)

Comparable Measures

Comparable measures are provided because management uses this information in evaluating the results of the core operations of the Company and/or internal goal setting. In addition, the Company believes this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance. As such, the following items, when appropriate, are excluded from comparable results:

Acquisitions, Divestitures and Related Costs

Acquisitions, divestitures and related costs includes transaction and associated costs in connection with pending and completed acquisitions, investments and divestitures. In addition, in connection with acquisitions, the allocation of purchase price in excess of book value for certain inventory on hand at the date of acquisition is referred to as inventory step-up. Inventory step-up represents an assumed manufacturing profit attributable to the acquired company prior to acquisition. For inventory produced and sold after the acquisition date, the related manufacturer's profit accrues to the Company.

Restructuring and Other Strategic Business Development Costs

Restructuring and other strategic business development costs consist primarily of costs recognized by the Company in connection with certain activities which are intended to simplify, streamline or increase efficiencies. These costs include restructuring charges, such as employee termination benefit costs, contract termination costs, costs to consolidate or close facilities and relocate employees, and other costs which are not reflective of the core operations of the Company related to strategic business development initiatives.

COMPARABLE MEASURES (NON-GAAP)

Other

Other includes items that are not specifically related to acquisitions and divestitures or restructuring and other strategic business development costs (e.g. unrealized net gain (loss) on securities measured at fair value, loss on extinguishment of debt, impairment of assets, loss on contract termination and net (gain) loss from the mark to fair value of undesignated commodity derivative contracts prior to settlement).

Comparable Basis Earnings before Interest and Taxes ("Comparable Basis EBIT"), as used by the Company, means operating income plus equity in earnings (loss) of equity method investees, both on a comparable basis. Comparable Basis EBIT is considered a performance measure and the Company considers operating income the most comparable GAAP measure. Comparable Basis EBIT is used by management in evaluating the results of the core operations of the Company including, the results of its equity method investments. In addition, the Company believes this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance.

The Company has disclosed its debt to Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA") ratio and net debt to EBITDA ratio. These are non-GAAP financial measures that management believes are of interest to investors and lenders in relation to the Company's overall capital structure and its ability to borrow additional funds. The Company considers EBITDA a measure of liquidity and considers net cash provided by operating activities the most comparable GAAP measure.

Free cash flow as used by the Company means the Company's net cash flow from operating activities prepared in accordance with GAAP less capital expenditures for property, plant and equipment. Free cash flow is considered a liquidity measure and provides useful information to investors about the amount of cash generated, which can then be used, after required debt service and dividend payments, for other general corporate purposes. A limitation of free cash flow is that it does not represent the total increase or decrease in the cash balance for the period. Free cash flow should be considered in addition to, not as a substitute for, or superior to, cash flow from operating activities prepared in accordance with GAAP.

⁽¹⁾ Effective March 1, 2018, we adopted the FASB amended guidance regarding the recognition of revenue from contracts with customers using the retrospective application method. Accordingly, financial information for fiscal year 2017 and the interim and annual periods of fiscal 2018 presented herein has been adjusted to reflect the adoption of this amended guidance. Annual and interim periods prior to fiscal 2017, including interim periods for fiscal 2017, have not been adjusted to reflect the adoption of this amended guidance as the impact is not deemed material.

⁽²⁾ Certain items, when material, are reported as part of the Change in Operating Assets and Liabilities in the Company's quarterly filings. If not material, these same items are reported as part of Other Items. For reporting in this analysis, presentation for those certain items is consistent with the presentation in the Company's annual filings.

⁽¹⁾ Effective March 1, 2018, we adopted the FASB amended guidance regarding the recognition of revenue from contracts with customers using the retrospective application method. Financial information for the historical annual and interim periods presented herein are as previously reported and have not been adjusted to reflect the adoption of this amended guidance.

⁽²⁾ Includes impairment of intangible assets of \$8.4 million for the year ended February 28, 2017.

⁽³⁾ Certain (gains) losses on sales, when material, are reported separately in the Company's quarterly filings. If not material, these same (gains) losses on sales are reported as part of Selling, General and Administrative Expenses.

BUSINESS SEGMENT INFORMATION

Organic Net sales

The Company's internal management financial reporting consists of two business divisions: (i) Beer and (ii) Wine and Spirits, and the Company reports its operating results in three segments: (i) Beer, (ii) Wine and Spirits, and (iii) Corporate Operations and Other. In the Beer segment, the Company's portfolio consists of high-end imported and craft beer brands. In the Wine and Spirits segment, the Company sells a large number of wine brands across all categories – table wine, sparkling wine and dessert wine – and across all price points – popular, premium and luxury categories, primarily within the \$5 to \$25 price range at U.S. retail – complemented by certain premium spirits brands. The Corporate Operations and Other segment consists of general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments, including costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations and information technology. The business segments reflect how the Company's operations are managed, how resources are allocated, how operating performance is evaluated by senior management and the structure of the Company's internal financial reporting.

In addition, management excludes items that affect comparability ("Comparable Adjustments") from its evaluation of the results of each operating segment as these Comparable Adjustments are not reflective of core operations of the segments. Segment operating performance and segment management compensation are evaluated based upon core segment operating income (loss).

Organic and Constant Currency

For periods of acquisition, the Company defines organic as current period reported less products of acquired businesses reported for the current period, as appropriate. For periods of divestiture, the Company defines organic as prior period reported less products of divested businesses reported for the prior period, as appropriate. The Company provides organic net sales and organic shipment volumes, and historically provided percentage change in constant currency net sales (which excludes the impact of year-over-year currency exchange rate fluctuations), because the Company uses this information in monitoring and evaluating the underlying business trends of its core operations. In addition, the Company believes this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance.

Free Cash Flow Guidance

Free cash flow, as defined in the reconciliation below, is considered a liquidity measure and is considered to provide useful information to investors about the amount of cash generated, which can then be used, after required debt service and dividend payments, for other general corporate purposes. A limitation of free cash flow is that it does not represent the total increase or decrease in the cash balance for the period. Free cash flow should be considered in addition to, not as a substitute for, or superior to, cash flow from operating activities prepared in accordance with GAAP.

	Range for the Year Ending February 28, 2019	
Net cash provided by operating activities (GAAP)	\$ 2,350.0	\$ 2,550.0
Purchases of property, plant and equipment	[1,150.0]	[1,250.0]
Free cash flow (Non-GAAP)	\$ 1,200.0	\$ 1,300.0

	Actual for the Nine Months Ended November 30, 2018	Actual for the Nine Months Ended November 30, 2017
Net cash provided by operating activities (GAAP)	\$ 1,973.9	\$ 1,468.4
Purchases of property, plant and equipment	[620.3]	[705.6]
Free cash flow (Non-GAAP)	\$ 1,353.6	\$ 762.8
